OPERATOR: [Signature]

Lessee agrees to rent the Poly Tank(s) described in this Rental Agreement under the terms and conditions set forth on the face and on the reverse side hereof, for a term beginning on the date hereof and ending on written or oral notice of termination given by either party to the other.

All liquids to be stored by lessee in the tank(s) must be represented in, and storage conditions must conform to the General Chemical Resistance Chart published under separate cover. Chemicals and conditions not listed must be approved by Poly Tanks management before placing the tank(s) into service. Lessee will not tamper with or remove pressure/vacuum relief valves provided on Vapor Proof tanks. Liquid Level gages provided on some tanks are indicators only, and are not to be used exclusively to gage each tank's contents.

Lessee has inspected the tank(s) rented pursuant to this Rental Agreement after their installation by Poly Tanks, Inc., acknowledges that the tank(s) are in good condition and that the installation is accepted by Lessee.

BY [Signature] TITLE _____ FOR IT Corp. COMPANY NAME

KINK WAAS

TERMS AND CONDITIONS OF RENTAL AGREEMENT

1. Poly Tanks, Inc. ("Poly") shall deliver the tank(s) described on the face hereof to the site designated by Lessee. Poly shall "spot" the tank(s) as directed by Lessee and Poly shall pick up the tank(s) upon the termination of this Rental Agreement, unless Poly reasonably concludes that such spotting or pick up requires a crane, A-frame or other special equipment not ordinarily used by Poly to spot or pick up tanks rented by its customers. Lessee shall bear the expense of and arrange for any special equipment not ordinarily used by Poly to spot or pick up tanks rented by its customers if Poly reasonably concludes that such equipment is necessary.

2. Transportation costs for delivery and pick up, cleaning and rent for each tank covered by this Rental Agreement shall be in accordance with Poly's Rate Sheet in effect from time to time. Rent for each tank shall be payable for the period from the date Poly delivers the tank(s) to Lessee through the date of termination of this Rental Agreement; provided, however, that rent shall continue to accrue on tanks that Poly reasonably concludes require use of special equipment for removal due to the presence of Lessee installed or caused obstacles and shall continue to accrue until Lessee removes such obstacles to removal. In the event that Poly picks up a tank(s) on termination of this Rental Agreement, or for any other reason, and such tank(s) contain waste materials necessitating cleaning such tank(s), all cleaning costs and all responsibilities and costs of disposing of such waste materials shall be the sole obligation of the Lessee. Accrued rent, cleaning and transportation costs are payable on Poly's demand. Upon termination of this Rental Agreement, if full payment is not received by Poly within five (5) days after demand, Poly may enter Lessee's property and empty and remove all tanks, accessory equipment and parts without notice or liability for damage to Lessee's property or other damages of any kind.

3. Lessee shall care for, control and be responsible for the tank(s), and for accessory equipment and parts furnished by Poly in connection therewith, from the time they are delivered to Lessee until Poly physically begins to remove them. Lessee shall not assign or transfer its rights hereunder. Lessee shall not move the tank(s) from their location after spotting without Poly's prior written consent. Lessee is strictly liable for any and all loss or damage to the tank(s), accessory equipment and parts, whether caused by Lessee, third persons, acts of God or otherwise, until Poly physically begins to remove them, except for reasonable wear and tear in normal use.

4. Poly warrants only that the tank(s), accessory equipment and parts furnished by Poly pursuant to this Rental Agreement are free from defects of workmanship and material; provided, however, that LIABILITY FOR BREACH OF THIS WARRANTY OF WORKMANSHIP AND MATERIAL IS LIMITED TO REPLACEMENT OF THE PART OR PARTS SHOWN TO BE DEFECTIVE UNDER PROPER USE. THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE AND ALL OTHER WARRANTIES ARE HEREBY EXPRESSLY EXCLUDED. Furthermore, Poly hereby warns Lessee that some materials and storage conditions will damage its tank(s), and Lessee is responsible and liable, under paragraph 3, for any damages caused by materials and storage conditions not represented in the General Chemical Resistance Chart, a reference guide published by Poly. These warranty provisions cannot be amended or modified orally or in writing and supersede any contrary representations or warranties, expressed or implied. In addition, Poly shall not be responsible for any damage or loss caused by the negligence of Poly's employees or agents occurring in connection with the performance of this Rental Agreement.

5. Lessee expressly agrees to indemnify and hold Poly harmless of, from, and against any and all losses, costs, damages, attorneys' fees, or expenses of any kind or nature, or other liabilities, resulting from or arising out of the use of said tank(s) by Lessee or in connection with this Rental Agreement.

6. This Rental Agreement does not and is not intended to create any security interest in its subject matter. At all times, full title to the tank(s), accessory equipment and parts remains in Poly.

7. If action be successfully instituted by Poly for the collection of any fees, charges or damages under this Rental Agreement, Lessee shall pay a reasonable sum in addition thereto as attorneys' fees and other costs of collection.

CERTIFICATE OF TREATMENT/RECYCLING

ISSUED TO

DOUGLAS AIRCRAFT COMPANY

MANIFEST NUMBER 92120255

DATE RECEIVED DECEMBER 7, 1992

FOR

The aqueous waste received on the above manifest will be treated to standards mandated by the FEDERAL CLEAN WATER ACT and to effluent requirements established by the Sanitation Districts of Los Angeles County. Waste treatment and recycling is performed under permits granted to CHEM-TECH SYSTEMS, INC., a California corporation, by the California Department of Health Services, in coordination with the Environmental Protection Agency, in accordance with the provisions of the Resource Conservation and Recovery Act (RCRA) of 1976, together with applicable federal and state regulations including but not limited to waste discharge requirements established by the Sanitation Districts of Los Angeles County.

When the above described material is accepted by CHEM-TECH SYSTEMS, INC. and treated/recycled and the aqueous phase discharged for further treatment by the Sanitation Districts, the certificate holder's responsibility for the material is eliminated under both RCRA and Proposition 65. Upon request, CHEM-TECH SYSTEMS, INC. will issue this certificate that all material has been handled in accordance with applicable permits, and the certificate holder's liability has been terminated.

1. Additional Descriptions for Materials Listed Above

a) ID # 101012-01, Machining coolant oil, Tank 417.

2. Handling Codes for Wastes Listed Above

a. 01

c. 01

15. Special Handling Instructions and Additional Information

In case of accident contact Chemtrec at 800-424-9300. Volume is approximate.
DOT ERG # N/A.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of the consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable federal, state and international laws.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.
